

# If you or someone you know has sight loss, we are here to help.

Living with sight loss can be challenging. We can provide advice and support to help people with sight loss living in Edinburgh, Midlothian or East Lothian to maintain their independence.

We help people learn essentials skills,  
gain knowledge and grow in confidence  
following a diagnosis of sight loss.

Together, we support people to keep  
doing the everyday things which are  
important to them.
